Jaloux

Canada • 94 minutes
 Directed by Patrick Demers
 Program: Canada First!
 Starring Sophie Cadieux, Benoît Gouin
NOW Rating: NNNN

Couples therapy inspires a crackling good thriller in Jaloux, a French-Canadian treat from a new filmmaker who has clear command of his craft.

Hoping to patch up their rocky relationship, Thomas and Marianne head to a cottage where they meet an ominous stranger who invades their intimacy. It's a suspenseful third-wheel scenario because of the palpable sexual tension between the characters, never mind the fact that there maybe a murderer among them. Demers ratchets up the suspense with efficient and confident storytelling that peels away the layers from his characters as they peel away each other's clothes. *(Radheyana Simonpillai)*
